**LOGAN CREEK ECOSYSTEM
RESTORATION PROJECT:
Final Environmental Impact Statement and
Record of Decision**

Enclosed are the Logan Creek Ecosystem Restoration Project documents in the format you requested. The Record of Decision explains the alternative that Forest Supervisor Cathy Barbouletos chose to implement. All the alternatives, including the Selected Alternative F, are analyzed in detail in the Final Environmental Impact Statement.

The 45-day appeal period for this project begins on March 5 and concludes on April 19, 2004. Information about submitting an appeal is found on page 36 of the Record of Decision.

If you have questions or wish to request a different format for any of the documents, please contact Bryan Donner. His office number and voice mail is (406) 863-5408, and he can also be reached at bdonner@fs.fed.us via e-mail. Format choices for the documents are as follows:

- A paper copy of the FEIS (approximately 450 pages).
- A paper copy of the FEIS Summary (approximately 50 pages).
- A paper copy of the Record of Decision (approximately 60 pages).
- A CD copy of the FEIS and Record of Decision, which includes a Summary, as well.

Thank you for your continued interest in this project.

LISA KRUEGER
District Ranger
